

SLIM+

*PROTECTED transmission
and nice design*

433.920 MHz transmitter - Up to 150 meters range*

HIGH SECURITY

SLIM+ offers a new technology which allows an **encrypted** and **copy proof** transmission. A **HIGH SECURITY transmitter** with an AES128 algorithm (usually used for the access control by the governments, banks...).

DESIGN

Matt black, metal contour lines, white details... A perfect match between robustness and modernity!

XP & RW+ FEATURE

Programming via radio with the **GT+ tool**; radio transmitter "site", "copy" and "group" code reading. Management thanks to our user-friendly WinAccess software.

SUITABLE RECEIVERS

WinAccess

MRMINI1E+/
MRMINI2E+

MR2E+/MR4E+

MRRE-4-USB+

**Measured ranges will vary according to the equipment installation; the range may be reduced due to external interferences*

COLORFUL COLLECTION

NEW!

SLIM+ can be made in **different colors** for more personalization. Bright and modern colors which will charm you for sure!
